Daily Performance

DAILY

Performance for 27 Oct 2026.

Total Production
1,823
Production units

Total Energy
2,557.000
Energy consumed · kWh

Average Line Speed
55.56
Units per minute

Active Production Lines
4 / 4
Lines with saved records

Monthly Performance

MONTHLY

Totals for October 2026.

Monthly Production
14,840
Production units

Monthly Energy
10,850.630
Energy consumed · kWh

Monthly Average Line Speed
37.62
Units per minute · average of recorded shifts

Monthly totals cover the selected calendar month. Trend charts show records from the first day of the month through the selected report date.

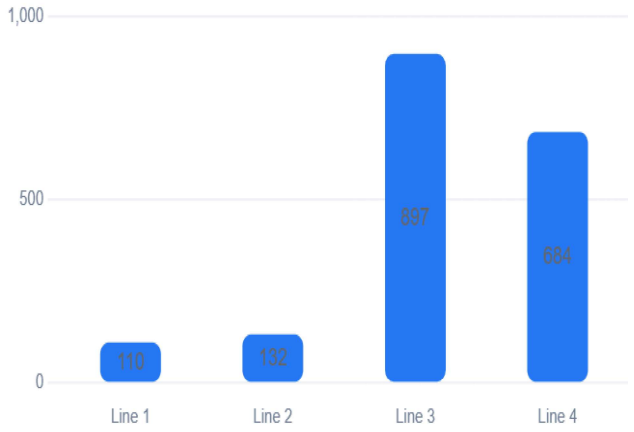

Production Analysis

9 CHARTS

Compare lines, shifts, products and operating trends.

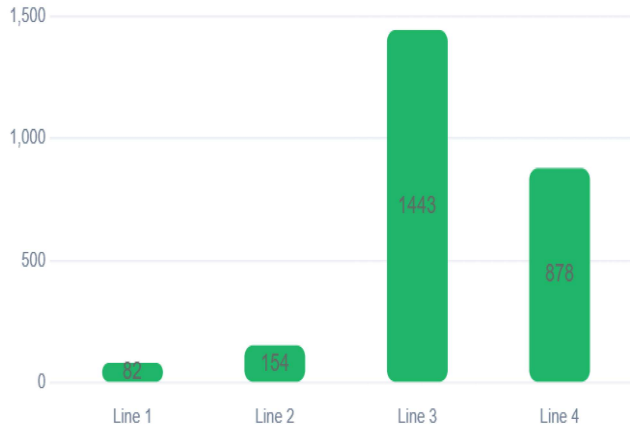

Production by Line

Selected day · production units

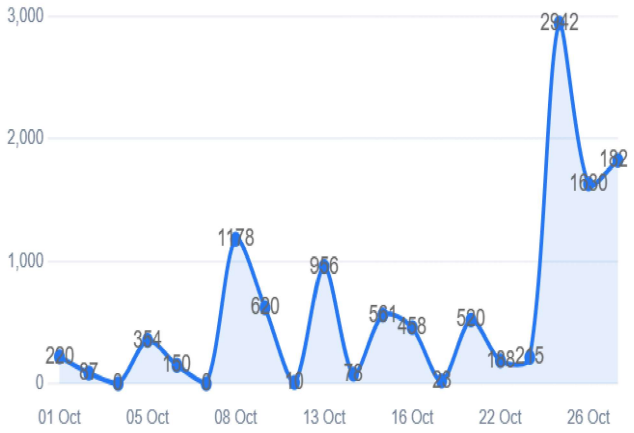

Energy by Line

Selected day · kWh consumed

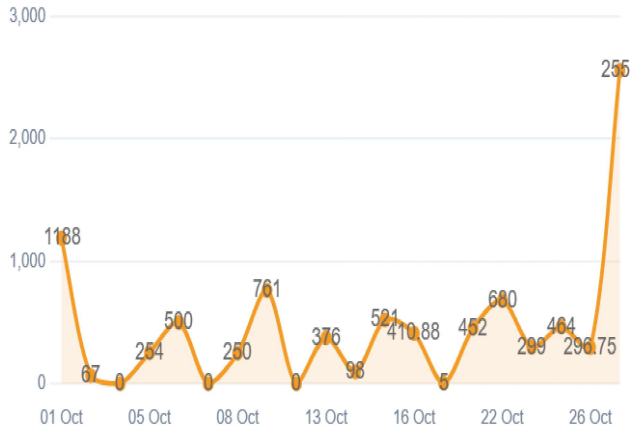

Production Trend

Month to selected date

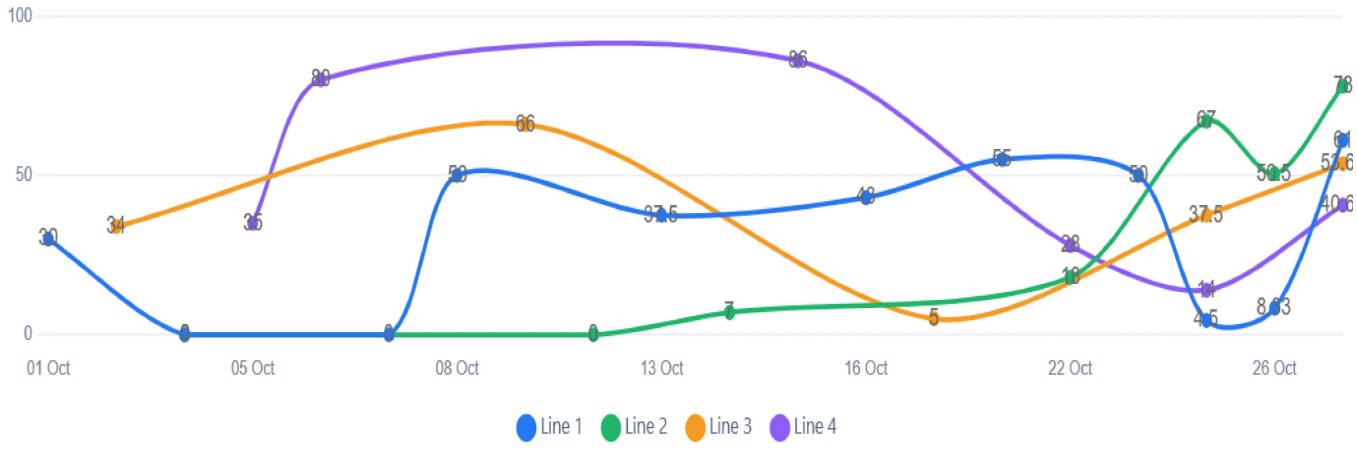

Energy Trend

Month to selected date · kWh

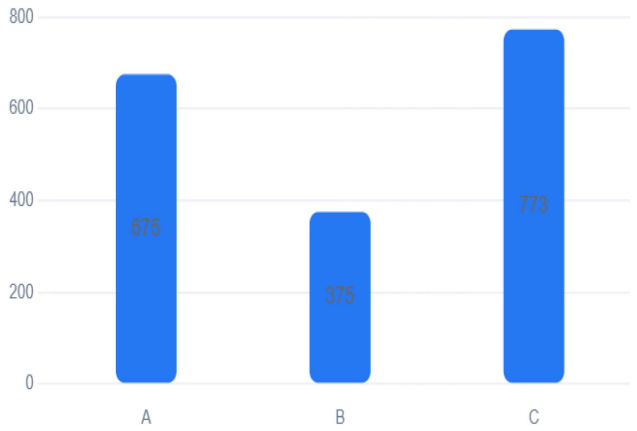

Line Speed Trend

Daily average speed by line · units/min

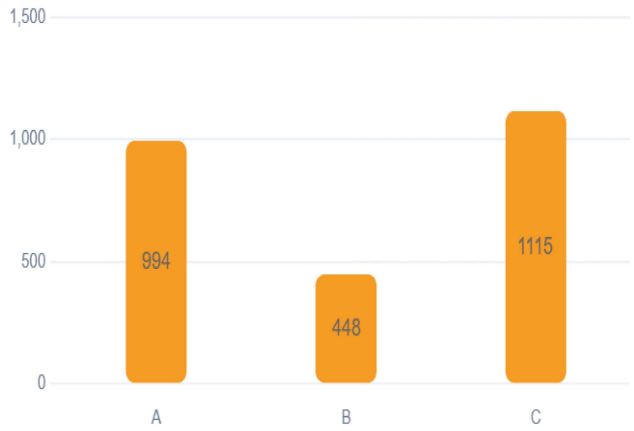

Production by Shift

Selected day · units

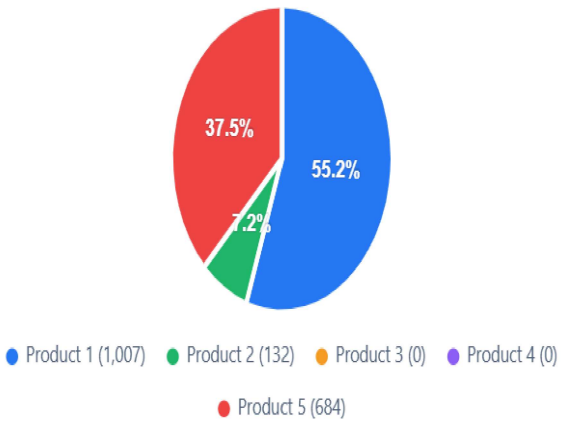

Energy by Shift

Selected day · kWh

Production by Product

Selected day · product contribution

Energy by Product

Selected day · kWh by product

Daily Line Performance

LINE SUMMARY

Line-level summary for the selected report date.

PRODUCTION LINE	PRODUCT	TOTAL PRODUCTION	TOTAL ENERGY (KWH)	AVERAGE SPEED	STATUS
Line 1	Product 1	110	82	61.00	Recorded
Line 2	Product 2	132	154	78.00	Recorded
Line 3	Product 1	897	1,443	53.67	Recorded

PRODUCTION LINE	PRODUCT	TOTAL PRODUCTION	TOTAL ENERGY (KWH)	AVERAGE SPEED	STATUS
Line 4	Product 5	684	878	40.67	Recorded
