Production Entry

Record shift-wise output, line speed and energy consumption.

Production date: 27 Oct 2026

Enter Production Data

Complete all required fields before reviewing your entry.

ⓘ One product can be assigned to each line per day. Record production separately for shifts A, B and C.

Production date *

10/27/2026

Choose the date for this shift's production.

Production line *

Line 1

Select the line that operated.

Product *

Product 1

This line already has records for this date. Continue with Product 1.

Shift *

B

Each shift can have one record per line per day.

Production quantity (units) *

e.g. 1200

Enter a whole number, zero or higher.

Line speed (units/min) *

e.g. 50.5

Enter the recorded speed for this shift.

Energy consumed (kWh) *

e.g. 230.75

Enter this shift's energy consumption.
