Production & Energy Trends

Track daily totals across the selected period.

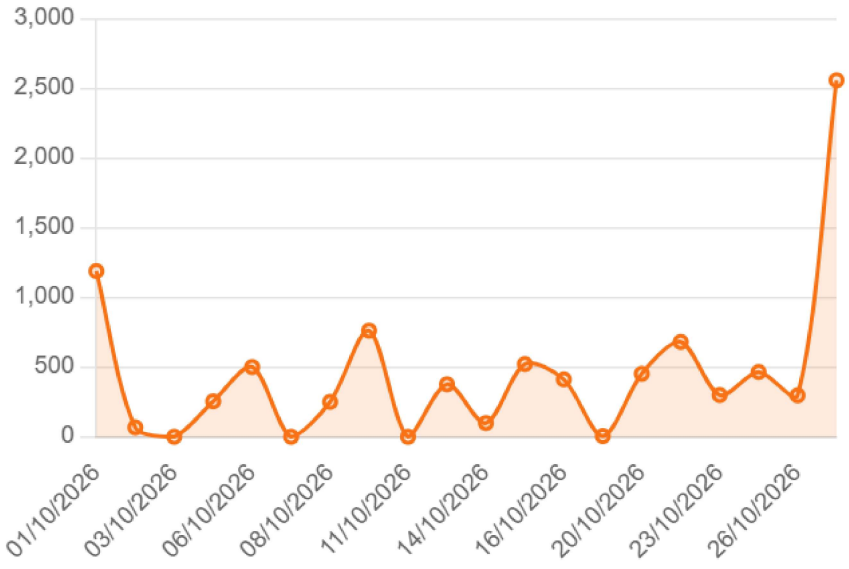

Daily Production

Total production quantity per day

Daily Energy Consumption

Total energy consumed per day

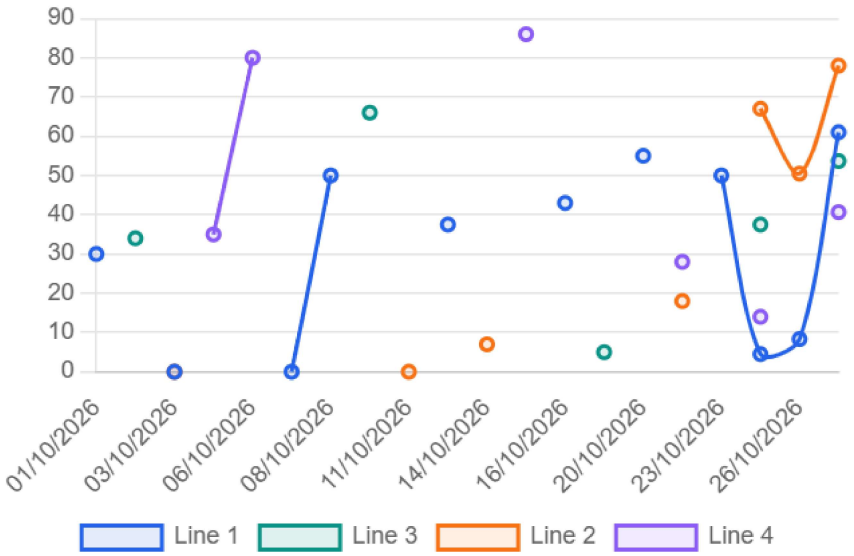

Line Performance

Compare production lines and observe speed changes.

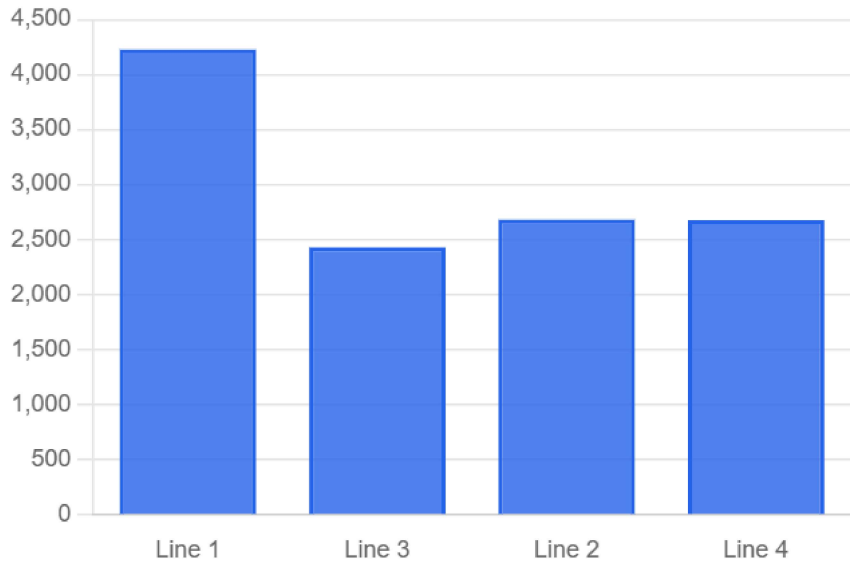

Average Line Speed Trend

Average speed for each line by date

Production by Line

Total production for each line

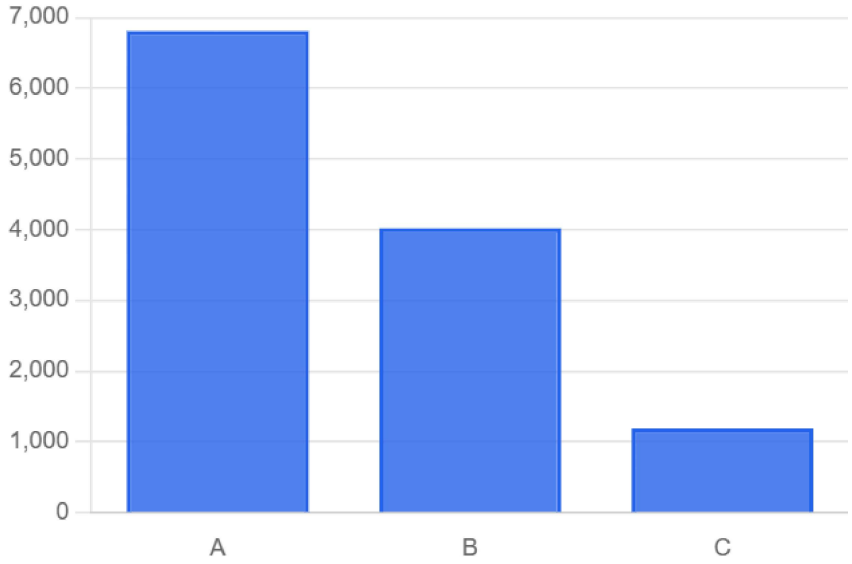

Shift Performance

Compare production, energy and average speed for shifts A, B and C.

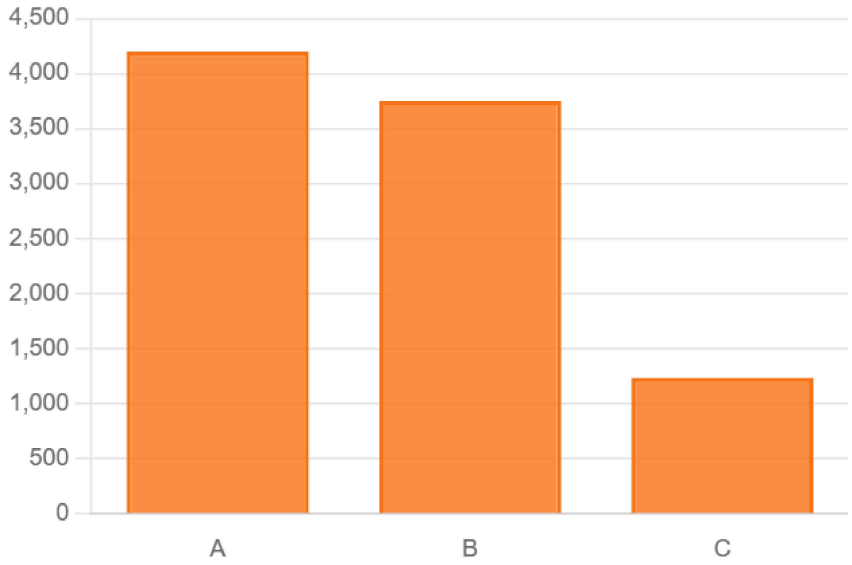

Production by Shift

Total quantity produced per shift

Energy by Shift

Total energy consumed per shift

Shift Performance Details

Numerical summary of the selected period.

SHIFT	TOTAL PRODUCTION	TOTAL ENERGY	AVERAGE SPEED
A	6,807	4,198.63	33.93
B	4,016	3,749	35.38

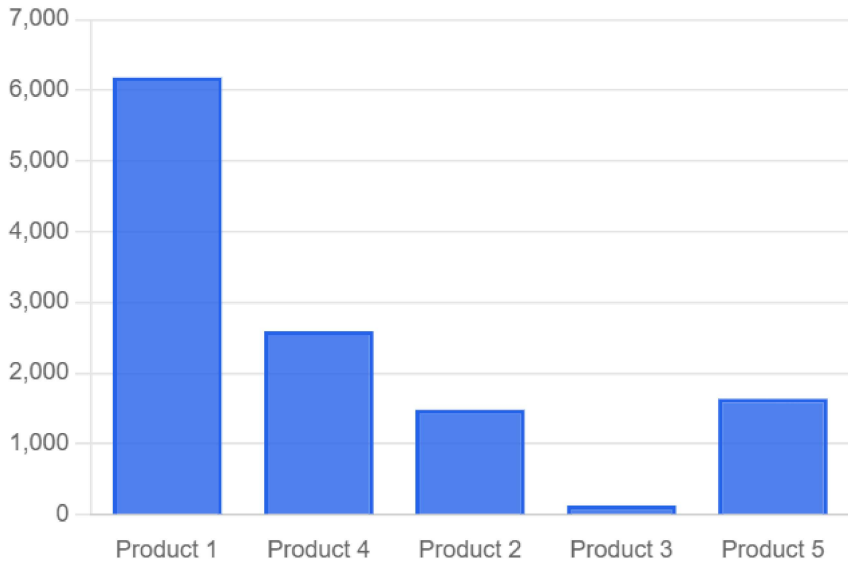

SHIFT	TOTAL PRODUCTION	TOTAL ENERGY	AVERAGE SPEED
C	1,190	1,232	39.75

Product Performance

Compare production and energy consumption across products.

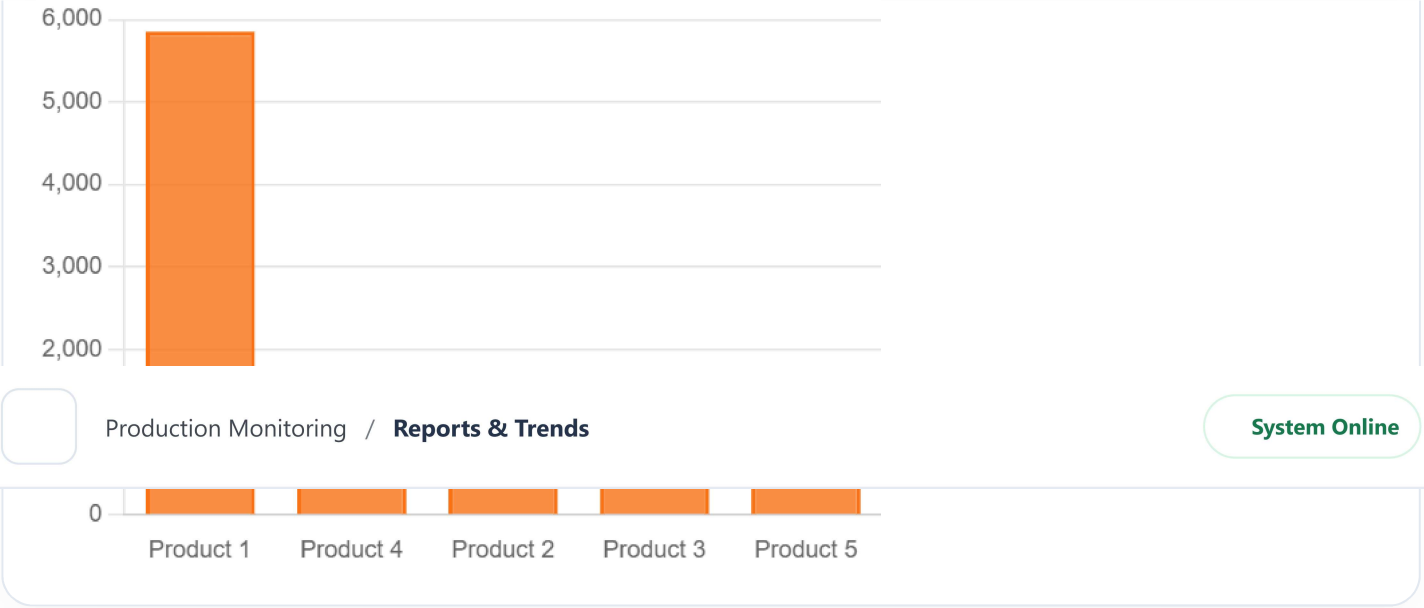

Production by Product

Total production for each product across all lines

Energy by Product

Total energy for each product across all lines

Line, Product & Shift Breakdown

Detailed figures for each combination returned by the report API.
